THE JOURNEY FROM ONE
 TO ONE WORLD
 Symposium 2000 • 26-29 January • Palm Springs

Seattle ...
THE JOURNEY CONTINUES:
COMPREHENSIVE TREATMENT PLANNING
 FRIDAY 28 JANUARY 2000

Symposium attendees will participate in two treatment planning sessions with some of our most formidable expedition leaders, followed by clinical lectures.

Treatment Planning Expedition Leaders

- Dr. John Kois
- Dr. Vince Kokich
- Dr. Avishai Sadan
- Neil Starr

Dr. Craig Misch
 Prosthetic Guided Bone Augmentation
 Alveolar reconstruction to enhance bone volume must follow prosthetic parameters to fulfill ideal aesthetic, biomechanical and functional requirements. Dr. Misch will introduce a prosthetic-driven approach to deal with bone deficiencies.

Dr. John Burgess
 Predictably Accurate to Successful Adhesive Dentistry
 Aesthetically pleasing, long-lasting results can be achieved with a wide range of adhesive materials, but each has different technical demands. Dr. Burgess will review many of today's most popular materials and describe the specific techniques necessary for success with each.

Michael Gelb
